

USP2L

Telephone and Power Surge Protector

USP2L is Telephone and Surge Protector.

What is in the USP2L package?

1. Active Power Surge Protector. May or may not come with active telephone surge protector.
2. Passive Telephone lightning Surge Protector

Follow the diagram below for installation.

The active power surge protector may nor may not come with an active telephone surge protector. If the power surge protector does not come with an active telephone surge protector, then connect the phone line directly to the passive surge protector.
